

Forklift Training is required by OSHA, and every three years forklift operators *must* be re-licensed by completing training and passing a test. Martin makes that easy for our customers by offering customizable, on-site, forklift safety training classes that meet the standards for 29 CFR 1910.178.

For **July only** you can schedule safety training for all of your forklift operators at a **25% discount**. Ensure the safety of all of your employees by making sure that your drivers have been professionally trained by an **Professional and Licensed Forklift Trainer**.
