**3M™ SILVER CUT-OFF WHEEL**

Designed to quickly cut through metal pipes, tubes flat sheets and more. Exceptional durability extends the life of the wheel for great performance value. 3M™ Precision-shaped grain cuts exceptionally fast, helping increase productivity. May be used on a variety of substrates such as carbon steel and stainless steel.

**3M™ SILVER DEPRESSED CENTER GRINDING WHEEL**

Designed for heavy grinding, beveling and weld removal. May be used on a variety of substrates such as carbon steel and stainless steel. Reduces changeouts and downtime in robotic and pressure-assisted applications. Exceptional durability extends the life of the wheel for great performance value. Use with tools and accessories designed for depressed center grinding wheels.

**3M™ FLAP DISCS 769F**

Delivers long-lasting high performance and versatility at a value price. Contains 3M™ Precision-Shaped Grain, which cuts faster and lasts longer than conventional abrasive grain. Proven to out perform traditional alumina zirconia flap discs. Individual flaps break down, exposing fresh mineral to deliver consistent cut rate for the life of the disc. Ideal for use on carbon steel, stainless steel and other heat-sensitive alloys. Covers a wide range of applications from weld grinding and beveling to surface prep.

ITEM #	MARTIN #	DESCRIPTION	SIZES	UOM	PRICE/EA

**3M™ FIBRE DISC 787C**

Rapidly cuts hard to grind metals like stainless steel and high nickel alloys. Premium mineral excels at heavyweight applications such as weld grinding, beveling, and edge chamfering. 3M™ Precision Shaped Grain yields higher cut rates and cooler cut while completing more parts per disc than conventional fibre discs. Grinding aid minimizes grinding temperatures for heat-sensitive alloys. Long-lasting disc helps reduce cost. Stiff fiber backing and strong resin bond provide durability and tear.

ITEM #	MARTIN #	DESCRIPTION	SIZES	UOM	PRICE/EA
7100099294	MMM7100099294	3M™ Fibre Disc 787C 60+	7" x 7/8"	100/Cs	\$2.71

## SCOTCH-BRITE™ CLEAN AND STRIP DISCS

Quickly removes rust, paint, mill scale and coatings from metal. High-strength fiber resists chunking and performs well on edges. High conformability provides a larger contact patch for faster removal rates. Silicon carbide mineral cuts aggressively and leaves a fine finish. Resists loading for consistent cutting action. XT Pro Extra Cut for those extra challenging jobs.

**WARNING**

These eye and face protection products help provide limited eye and face protection. **Misuse or failure to follow warnings and instructions may result in serious potential injury, including blindness or death.** For proper use, selection, and applications against flying particles, optical radiation and/or splash see supervisor, read *User Instructions* and warnings on the package or call 3M PSD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, *User Instructions*, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury.

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

7000002304

### 3M™ E-A-R SOFT™ YELLOW NEON BLASTS™ DISPOSABLE FOAM EARPLUGS

Soft foam provides low-pressure comfort. Features optional breakaway cord. Metal detectable models feature a stainless steel ball encapsulated into the earplug's foam and a metal detectable cord. Test compatible with 3M™ E-A-R fit™ Validation System.

**3M™ RUGGED COMFORT HALF FACEPIECE REUSABLE RESPIRATORS, 6500 SERIES**

7000128239

Helps provide respiratory protection against airborne contaminants in harsh, dirty environments. Facepiece is designed to help promote comfort, durability and stability with a firm, lightly textured silicone faceseal and strong body construction. Helps provide respiratory protection at concentrations up to 10 x the Permissible Exposure Limit (PEL) when respirator is properly fitted. Sleek, overmolded/low-profile design helps to give a wide field of view that better suits compact work spaces and simplifies cleaning. Resilient silicone faceseal offers an extended facepiece life, even keeping its shape in high-heat environments. Facepiece offers numerous other comfort features including a special valve cover that helps to direct exhaled breath and moisture downward and 3M's proprietary Cool Flow™ Valve that helps to make breathing easier by reducing heat and moisture. Made to fit securely and comfortably on the head, the facepiece comes with an adjustable head harness assembly featuring polyester/spandex straps that stretch and conform. Facepiece is compatible with all 3M™ bayonet-style filters and cartridges to help provide respiratory protection against a variety of gases, vapors and particulate hazards according to NIOSH approvals. Features a proprietary Quick Latch design offering an easy, one-hand touch drop-down mechanism for putting the facepiece on and off while moving in and out of contaminated areas. NIOSH/MSHA Approved.

**3M™ ALL PURPOSE DUCT TAPE DT8**

7100158345

Aggressive, synthetic rubber adhesive provides instant adhesion to a wide variety of surfaces, including metal, glass, plastic and sealed concrete. Tears easily by hand and provides ease of application and handling. Conformable backing allows for performance in a variety of surface applications. Tightly woven scrim provides high tensile strength, which is ideal for bundling applications. Consistent unwind improves handling in a variety of applications. Silver.

### 3M™ ALUMINUM FOIL TAPE 425

Thermally conductive 4.6-mil tape with highly engineered acrylic adhesive withstands exposure to flame, weathering, moisture and UV. Helps dissipate heat and improves heating and cooling efficiency to protect temperature sensitive materials. Resistant to chemicals to protect surfaces during de-paint process and other chemical masking operations. Provides long term durability, but removes cleanly after harsh masking applications.

2120006452	MMM2120006452	3M™ Double-Coated Urethane Foam Tape	Rl	\$108.55

### 3M™ VHB 4950 HEAVY-DUTY FOAM MOUNTING TAPE

Adhesive tape with a firm foam core is a perfect replacement for drilling, welding, and mechanical fastening requirements. Offers durable and reliable bonds on a variety of indoor and outdoor applications. Chemically-resistant bonding tape is UV and temperature stable. Engineered to withstand fluctuating heat and cold. Viscoelastic foam core tape is flexible and allows the use of thinner, lightweight or dissimilar materials. 45-mil thick. Use this double-sided tape to cover rivet heads, weld marks, and screws, creating a smooth surface.

### 3M™ SCOTCH-WELD™ EPOXY ADHESIVE DP420

High peel and shear strength maintains lasting bond at high and low temperatures. Toughened for impact and fatigue resistance. 20-Minute work life provides time for positioning and adjustment. Adhesive cures at room temperature, making it a convenient and easy to use solution for challenging applications. Can replace mechanical fasteners, screws, rivets and spot welds in many applications.

2120087832	MMM2120087832	3M™ Scotch-Weld™ Epoxy Adhesive DP420	200 mL	12/Cs	\$90.62

### 3M™ HOT MELT ADHESIVE

Economical, fast-setting resin solid hot melt adhesive. Aggressive hot tack rapidly achieves handling strength for packaging and other applications. Medium open time allows for positioning and fit adjustment. Securely bonds difficult to seal substrates such as lightly waxed surfaces. Virtually invisible when bonded, eliminating unattractive mechanical fasteners and tape products.
