

## Benz-Martin Maintenance Lubricants

Did you know Martin has maintenance fluids stocked and available? These items are manufactured in the USA by Benz in their fully ISO certified manufacturing facility.

### Products Available

- Hydraulic Oils
- Slideway Lubricants (Way Oils)
- Spindle Oils
- Gear Oils (synthetic & mineral based)

### Competitive Value

Multiple Packages (330 Gallon Totes, Drums, and Pails)

Next Day Delivery with Locally Stocked Product

### Specification Driven

- Benz products meet these OEM specs: Factory Mutual (FM), AGMA, Vickers, Denison, Bosch, Milicron, and US Steel are among the many organizations that provide approvals for Benz maintenance fluids

### Virgin Base Oils

- No recycled or re-refined oils

### Compatibility Studies

- Most Benz products compatible with your current fluid
- Can be poured right on top without having to do costly changeovers or utilizing manpower
  - Compatibility tests available with your oil

### Oil Analysis

- No cost oil analysis
- Free sampling/oil analysis kits
- Live technical support
- Bottles, labels, and machine tags for secondary containers

Sampling, tech support, and service are **FREE** when you use a Benz product purchased through Martin. Lubricant systems are being dumped prematurely costing money, time, and wasting valuable oil that could still be used. Let us help you reduce this at **no cost** by bringing your oil analysis to life!
