

3M

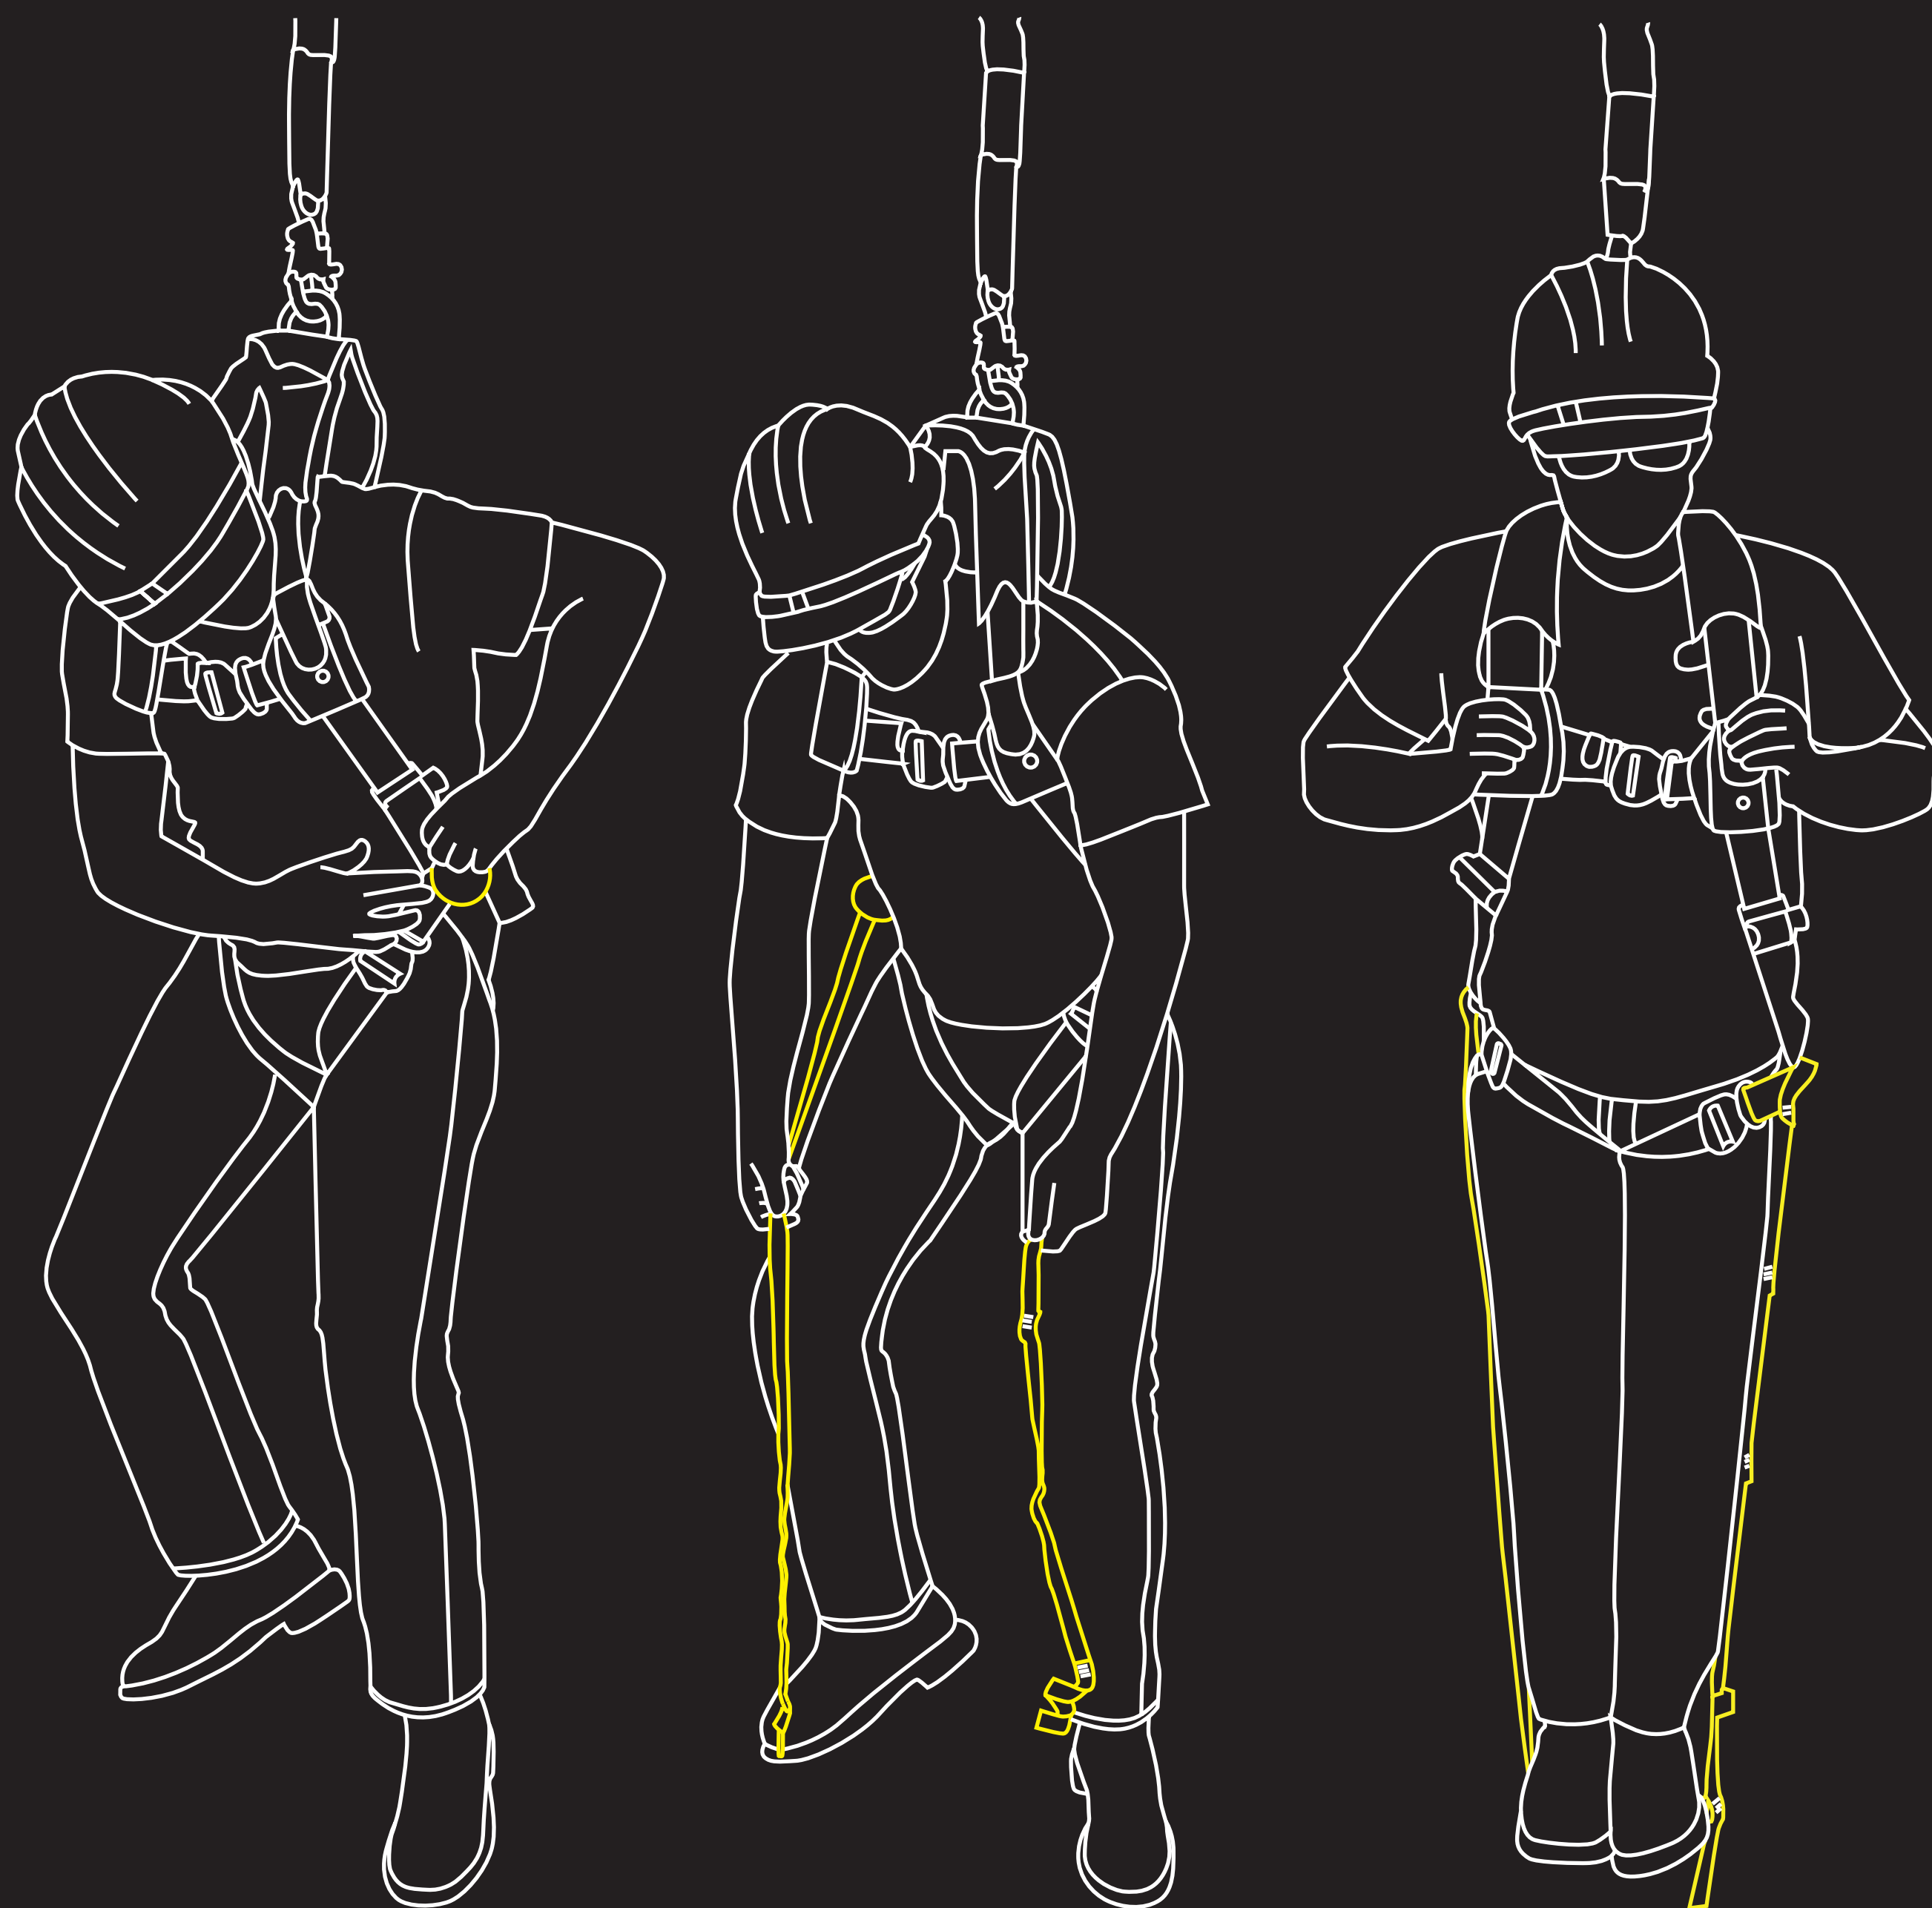

Fall Protection

MARTIN

Stand with us to help prevent suspension trauma.

3M™ DBI SALA® Suspension Trauma Safety Straps are designed to help prevent the effects of suspension trauma.

1 | Leg Circulation

Relieves pressure applied to arteries and veins around the top of legs after a fall.

2 | Heart Circulation

Reduces anxiety and the onset of shock which prevents an increased heart rate.

3 | Brain Circulation

Recirculates blood flow to the brain, reducing the chance of going into cardiac arrest, having brain damage, or death.
