Scotch-Brite™ Hand Pads 7447 PRO and 7448 PRO

Scotch-Brite™ 7447 PRO Hand Pad combines flexibility with effective cutting action and precise hand control to help you accomplish tough cleaning jobs or produce fine finishing results, use after use. Scotch-Brite™ 7448 PRO Hand Pads combine durability for long life with flexibility for reaching tight areas. These pads can be used in place of steel wool for conditioning metal surfaces and paint prep in less time than conventional non-woven abrasive products. The tightly graded abrasive particles provide a consistent, uniform scratch throughout the life of the pad.

Scotch-Brite™ Clean and Strip XT Pro Disc

Scotch-Brite™ Clean and Strip XT Pro Disc features silicon carbide abrasive mineral incorporated into an open nylon web. It effectively removes rust, paint, mill scale, coatings and adhesives from surfaces without significantly altering the base material. The high-strength fibers are highly conformable, resist chunking and loading, and perform well on the edges of a workpiece.

Scotch-Brite™ Clean and Strip XT Pro Extra Cut Disc

Scotch-Brite™ Clean and Strip XT Pro Extra Cut Disc features aluminum oxide abrasive mineral incorporated into an open nylon web. It is designed to remove heavy rust, thick paint and corrosion while also scratching the base material underneath, which can save you time. The highly conformable, high-strength fibers resist chunking and loading, and they perform well on edges.

3M™ Flap Disc Holder T27

The 3M™ Flap Disc Holder helps secure 3M™ flap discs and cup wheels to power tools. Specifically, it accommodates Type 27 flap discs and wheels that have a depressed center and measure 6 or 7 inches in diameter. Abrasives without a built-in hub reach their maximum potential with the help of the 3M™ Flap Disc Holder.

Anaerobic Adhesives

3M™ Scotch-Weld™ Threadlockers

These one-component anaerobic adhesives provide vibration, corrosion and shock resistance for fasteners in assembled form. They're long open time adhesives that cure quickly, filling and sealing threads completely to help stop corrosion, rust and leaks.

3M™ Scotch-Weld™ Threadlocker TL22

Screwlock for low removal torque fasteners less than a ¼" (6 mm). Prevents nuts and bolts from loosening with vibration. Eliminates the need for lock washers and other locking components. Medium viscosity.

Post-it® Super Sticky Easel Pad

It's an amazing feeling when your team just clicks — everyone feels a shared drive toward success. But, how do you ignite that feeling on every team? Capture the spark at your next meeting with Post-it® Super Sticky Easel Pads. Adhesive backed sheets stick and restick to hold up to 2X longer* to most wall surfaces, unlike flip chart paper. The paper resists marker bleed through so you can capture input by writing directly on the sheet. Use with Post-it® Super Sticky Notes to organize ideas. Download the free Post-it® App to instantly capture and save your work so you can share notes with the team without recaps or delays.

Post-it® Flex Write Surface, The Permanent Marker Whiteboard Surface

Transform your space by resurfacing a blackboard, stained whiteboard or cover an entire wall. With the use of permanent markers, there is less chance of accidental smearing or erasing, and the permanent marker wipes away with just water. While only water is needed to wipe away permanent marker, Post-it® Flex Write Surface is also safe for use with common disinfectant sprays. It's been tested with common disinfectant sprays found in medical facilities, however, as always be sure to follow the manufacturer's instructions. Designed for one-time wall application for long-term use. Limit attempts to reposition the film as repositioning the film could result in permanent damage to the writing surface including permanent creases or imperfections to the writing surface and is not recommended usage.

Wire and Cable Connectors

3M™ Performance Plus™ Wire Connectors

We designed our 3M™ Performance Plus™ Wire Connectors with a uniquely flexible spring that has generous room for expansion and a strong bite for a secure connection. Because of their increased wire range, just three Performance Plus Wire Connectors handle the work of eight standard connectors. There's less inventory to manage with a better chance you'll have the connectors you need to do every job. And the flexible skirt helps prevent copper exposure for enhanced safety. These connectors are UL Listed for 600 volts on copper wire.

Fire Barrier Sealants

3M™ Fire Barrier Sealant IC 15WB+

Engineered to form a monolithic seal after drying, 3M™ Fire Barrier Sealant IC 15WB+ is a yellow, one-part, gun-grade, intumescent firestop sealant that provides up to 3-hour fire protection in tested and listed systems. This helps prevent the spread of fire, smoke and noxious gas, while also acting as an acoustic barrier to help minimize noise transfer.

3M™ Safety-Walk™ Slip-Resistant Medium Resilient Tapes and Treads 300 Series

3M™ Safety-Walk™ Slip-Resistant Medium Resilient Tapes and Treads help minimize the risk of slip-and-fall accidents. The medium-textured surface is comfortable for bare feet, yet holds up well under light shoe traffic. Good traction and moisture resistance make this anti-slip tape ideal for food service areas, locker rooms, decks, stairwells, pool areas, diving boards, jet skis, and boats. A moisture-resistant adhesive backing allows simple press-in-place installation. They resist wrinkling, curling, tearing, shrinking, and lifting. The anti-slip tapes and treads cost effectively help meet OS guidelines and ADA coefficient of friction requirements.

3M™ DBI-SALA® Hook2Hook Tether w/Swivel

Our patented 3M™ DBI-SALA® Hook2Hook Coil Tether features a swivel hook, making tools like screwdrivers and wrenches easier to use. It is a tethering solution specifically designed for tools weighing up to 5 lb (2.3 kg). With a relaxed length of 4 inches, and a stretched length of 62 inches, this tool tether stays out of the way when not in use. An extra-thick PU coating around the coil prevents kinking and allows the coil to retain its form. Suitable for use from holsters, belts, harnesses and tool pouches alike, the Hook2Hook Coil Tether is a versatile solution that is both resistant to heat and to sharp objects. Lightweight aluminum carabiners on either side of the extension feature locking screw-down nuts that cannot be removed. Weight capacity: 5 lb (2.3 kg).

3M™ DBI-SALA® Quick Wrap Tape II

Our redesigned 3M™ DBI-SALA® Quick-Wrap Tape II helps deliver long-lasting tool attachment performance while requiring up to 40% less tape compared to our previous generation 3M™ DBI-SALA® Quick-Wrap Tape. Proprietary 3M material and adhesive technology helps provide good tear resistance while you work. High-elongation properties result in more wraps with the same length of tape. Conforms to the shape of tool handles, adheres on contact to most clean tools and can be repositioned during installation. Enhanced stretching results in a thin, low-profile installation. Ready for use upon installation — no waiting period required. Weight capacity: 2 lb (0.9 kg).

High Performance Tapes

Scotch® High Tack Box Sealing Tape 371+

Scotch® High Tack Box Sealing Tape 371+ is an industrial grade polypropylene film packaging tape with a synthetic rubber adhesive to provide a high-strength tamper-proof seal. It is specifically designed to adhere to a wide range of materials including corrugated boxes with 100% recycled content. It is easy to unwind and dispense by hand or with manual dispensers or 3M-Matic™ Case Sealers. This tape resists abrasion, moisture, chemicals and scuffing for long-lasting performance. Once applied it performs well at temperatures as low as 32°F (0°C).

⚠ WARNING!

SORBENT PRODUCTS WARNING

Failure to properly handle and dispose of sorbents contaminated by hazardous materials could result in serious physical injury or death. For proper handling, consult the Material Safety Data Sheet for the material absorbed, applicable safety and health standards, contact your supervisor, or call 3M CSD Technical Service in the USA at 1-800-626-8578.

⚠ WARNING!

These respirators help reduce exposures to certain airborne particulates. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in injury, illness or death. For correct use, consult supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

⚠ WARNING!

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in hearing protector fit, fitting skill and motivation of the user. If the NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

NOTE! When worn according to the User Instructions, this hearing protector helps reduce exposure to both continuous noises, such as industrial noises and noises from vehicles and aircraft, as well as very loud impulse noises, such as gunfire. It is difficult to predict the required and/or actual hearing protection obtained during exposure to impulse noises. For gunfire, the weapon type, number of rounds fired, proper selection, fit and use of hearing protection, proper care of hearing protection, and other variables will impact performance. If your hearing seems dulled or you hear a ringing or buzzing during or after any noise exposure (including gunfire), or for any other reason you suspect a hearing problem, your hearing may be at risk. To learn more about hearing protection for impulse noise, please visit www.3M.com/hearing.

⚠ WARNING!

Compliant fall protection and emergency rescue systems help prevent serious injuries associated with fall events. Users must read and understand the User Instructions provided with the product, and must be properly trained by their employers in the safe use of these systems before using them, per OSHA 1910.140 and 1926.503 or applicable local standards. Misuse or failure to follow warnings and instructions may result in serious personal injury or death. For correct use, see supervisor, User Instructions, or call 800-328-6146 (Opt. 1).

⚠ WARNING!

These products meet the requirements of certain industrial eyewear standards and with some models certain industrial head protection standards. They do not provide complete head, eye and face protection from severe impact and penetration and are not a substitute for good safety practices and engineering controls. **Misuse may result in serious injury or death.** For correct use, see supervisor and User Instructions, or call 3M PSD Technical Service.

⚠ WARNING!

This product is designed to help protect the wearer's eyes and face from harmful radiation including visible light, ultra-violet radiation (UV), infra-red radiation (IR), sparks and spatter resulting from welding processes. These products must be used only by qualified persons who are properly trained in their use and maintenance. **Misuse may result in permanent eye injury and vision loss.** Always wear ANSI Z87.1 compliant safety spectacles in addition to any welding helmet. For correct use, see supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

⚠ WARNING!

3M™ Hard Hat H-700 Series and 3M™ Hard Hat H-800 Series provide limited protection only. Misuse or failure to follow warnings and User Instructions may result in serious personal injury or death. For proper use see supervisor, User Instructions or call 3M Personal Safety Division (PSD) Technical Service at 800-243-4630 (USA) or 800-267-4414 (Canada).

⚠ WARNING!

These respirators help protect against certain airborne contaminants. **Misuse may result in sickness or death.** For proper use, the wearer must read and understand User Instructions provided as part of the product packaging, see supervisor, or call 3M PSD Technical Service at 1-800-243-4630. Time use limitations may apply.

Important – Before using these respirators, you must determine the following:

1. The type of contaminant(s) for which the respirator is being selected.
2. The concentration level of contaminant(s).
3. Whether the respirator can be properly fitted on the wearer's face. All respirator instructions, warnings and use and time limitations must also be read and understood by the wearer before use.

Before use of these respirators, a written respiratory protection program must be implemented, meeting all the requirements of OSHA 29 CFR 1910.134, including training and fit testing.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
