

OUTSIDE CONTRACTOR AND VENDOR SAFETY TRAINING

*Maximize plant safety by having
all Contractors and Vendors
pass a custom tailored
Martin 8-Hour Safety
Seminar*

The **Martin Outside Contractor and Vendor Safety Training** is a unique opportunity for manufacturers who need contractors, vendors and other non-employee personnel to adhere to your plant safety guidelines.

Martin's training is a hands-on experience, not just another boring PowerPoint. Participants will interact with the equipment they will use and learn best practices to apply on the job site. Plus, we will reserve a select number of seats for your employees at no charge.

PROGRAM DETAILS

- Training paid for by participating outside contractors and vendors
- Minimum of 20 paying attendees
- The training takes place at your location with COVID-19 precautions in place.
- Specific topics are discussed beforehand so that the specific hazards at your location are covered in sufficient depth.
- Martin provides a Safety Certificate to all attendees. This is a valid safety training class for your on-going safety training initiative and safety training program.

CUSTOM-TAILORED SAFETY TRAINING

to help your company operate better, safely
