

# TOOL KITS

# Built to withstand. Made to last.

Each tool is tested to 10,000 VAC and used for working on, or in close proximity to, energized electrical apparatus or conductors operating at maximum voltage of 1000 VAC.

## Four tool grades allow for a wider range of offering to select from.

ONE

### Classic

Standard dipped

The insulating sleeve is integrated in the handle, injected directly around the blade.

TWO

### Choice

Injection Molded, Standard Grip

Injection molded technology allows for a streamlined handle in order to reach screws set in narrow recesses

Injection molded technology is up to 2/3 lighter than standard dipped insulated tools.

THREE

### Premium

Injection Molded, Ergonomic Grip

Ergonomic grip with high quality soft coating for comfort. The round end is smooth and shaped to fit the hollow of the palm for quick and precise rotation.

FOUR

### Composite

Injection Molded, Fully non-metallic

Contains absolutely no exposed metallic parts with blades made of ceramic which are approximately 2/3 the weight of traditional universal pliers. Composite materials ensures no corrosion.

These pliers, fully insulating, are specifically adapted for any low voltage operation in confined places where short circuit hazard could have heavy consequences for both staff and appliance. The ergonomics of the injection molded pliers removes risk of ruining the insulated gloves and will last longer over time.

## Classic

Choice Ratchet

AGTK-15

### AG SAFETY™ 12PC CLASSIC RATCHET KIT

**THIS KIT INCLUDES:**

- Choice Ratchet Spanner
  - 3/8"
- Classic Hexagonal Socket
  - 1/2"                      · 5/16"
  - 1/4"                      · 5/32"
  - 1/8"                        · 7/16"
  - 3/16"                     · 9/64"
  - 3/8"                        · 3/8"
- Classic Ratchet Ext 5"
  - 3/8" square drive
- Classic Ratchet Ext 10"
  - 3/8" square drive

**Color:** ■

**Features:**  
Tested to 10,000 VAC and used for working on, or in close proximity to, energized electrical apparatus or conductors operating at maximum voltage of 1000 VAC.

Injection molded design for increased durability and ease of manipulation. They last longer and can withstand more.

Meets ASTM F1505

## Choice

Choice Phillips Screwdriver

Dipped Combination Pliers

AGTK-1

### AG SAFETY™ 9PC TOOL KIT WITH CHOICE SCREWDRIVERS

**KIT COMPONENTS:**

- Choice Slotted Screwdriver
  - 5/32"
  - 1/4"
  - 5/16"
- Choice Phillips Screwdriver
  - #1
  - #2

**Color:** ■

**Features:**  
Tested to 10,000 VAC and used for working on, or in close proximity to, energized electrical apparatus or conductors operating at maximum voltage of 1000 VAC.

Meets ASTM F1505

- Accessories**
- wire stripper
  - 7" long nose plier
  - combination plier
  - side cutting plier

Folding Tool Bag

AGTK-9

### AG SAFETY™ 9PC CHOICE SCREWDRIVER KIT

**THIS KIT INCLUDES:**

- Choice Slotted Screwdriver
  - 1/8"
  - 5/32"
  - 1/4"
  - 5/16"
  - 3/8"
- Choice Phillips Screwdriver
  - #1
  - #2
  - #3

## Additional information

Because we offer many styles of pliers we want to keep you informed. See if your needs align the injection molded pliers with ceramic blades, metallic blades, or dipped pliers with metallic blades.

### Injection Molded Pliers

#### CERAMIC BLADES

Up to • Copper AWG #5 (fine stranded)

#### METALLIC BLADES

Up to • Copper AWG #3 (all)  
Aluminium AWG #2 (all)

### Dipped Pliers

#### METALLIC BLADES

Up to • Copper AWG #3 (all)  
Medium/Hard Steel AWG #14
