

Need help with your OSHA-mandated hearing tests?

Solutions Plus provides audiometric testing to keep your hearing conservation program in compliance with OSHA and other regulatory bodies.

- Testing administered by an Occupational Hearing Conservationist
- Testing performed onsite in a quiet room, not a trailer or booth, resulting in a faster return-to-work
- One-on-one instruction on how to wear earplugs correctly resulting in the perfect fit every time
- Education on the effects of noise and importance of hearing protection
- Web-based data management and reporting
- Education on Noise Induced Hearing Loss (NIHL)

Call or email us today for more information or to schedule your onsite audiometric testing.
