

SMALL-PARTS INVENTORY MANAGEMENT EXPERTISE

BROUGHT TO YOU BY MARTIN AND LAWSON PRODUCTS

Lawson's partnership with Martin offers you multiple opportunities to reduce your costs

Organizational Savings

Neatly organized and clearly labeled storage systems are customized to each shop's layout and specific inventory management needs to ensure operational efficiencies and savings

Reduce Outside Trips

We evaluate your operations and provide custom inventory management solutions with the right product quantity and mix to reduce outside trips for parts

Local On-Site Support

Local Lawson Representatives are on-site as an extension of your operations to handle initial set-up and ongoing stock replenishment

Reduce Down Time

Have the right products on hand to keep your lines up and running with 99% of all lines shipping within 24 hours

Find the Right Products

As an exclusive partner with Martin, count on Lawson for fasteners, pipe fittings, small electrical components and hydraulics for your specific applications

Improve Working Capital

Save costs and work more productively by having the right products in the right amounts, eliminating the need to tie-up your financial resources on unused inventory

A Smooth Transition

A scheduled no cost conversion with bins and cabinets ensures products are available without interruption

Customer Experience

“Martin’s joint efforts with Lawson led to the successful set up of fasteners and general components in Parkway Products’ mold repair area. The positive impact resulted in the customer requesting a large bin and drawer system for two additional areas of the plant.”

The feedback we have received from Parkway has been overwhelmingly positive.”

Jeff Taylor,
Martin Account Manager
