PRODUCTS

40 CAL / CM² ARC FLASH PROTECTION PPE CAT 4

The Mechanix Wear® PPE Cat 4 Arc Flash Suit integrates arc-rated PYRAD® Technology by GORE-TEX LABS with a versatile and streamlined garment design. This extremely lightweight PPE Cat 4 arc-rated garment allows electrical workers to stay focused and productive for a longer period of time without the fatigue built up from heavier, warmer solutions.

ARC FLASH SUIT + KIT

MADE WITH ARC-RATED PYRAD® TECHNOLOGY BY GORE-TEX LABS

PRODUCT OVERVIEW

*Suit made with arc-rated PYRAD® technology by GORE-TEX LABS compared to competitive premium lightweight solutions

**Kit comes with choice of either standard or lift-front hood

SINGLE LAYER ADVANTAGE

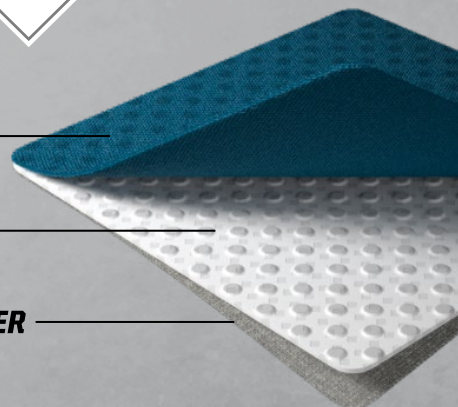

50% LIGHTER THAN OTHER GARMENTS IN THIS CLASS

- The form, fit and function you expect from Mechanix Wear design
- NFPA 70E PPE Cat 4 (40 ATPV) protection in one layer of fabric
- Arc-rated PYRAD® technology by GORE-TEX LABS provides heat, flame and flash-fire protection for defense personnel and industrial workers
- Thinner and more breathable
- Garments sized according to ASTM standards to ensure the right fit, without garment ride-up or slippage
