Size – 3'x3' Modular pieces to allow total customization.
Anti-fatigue nitrile rubber tile
MFG#- KM RG33TC

Safety Step Solid

Size – 3'x3' Modular pieces to allow total customization. Anti-fatigue solid surface rubber tile
MFG#- KM RS33BK

Modular/Rubber Tiles

- Interlocking tiles that can cover large, and odd-shaped areas.
- Drainage mats are commonly sold in areas of wet and oily conditions.
- Recommended for indoor use in industrial settings such as manufacturing facilities, automotive, machine shops, food processing plants, and areas where grease, oil, or chemicals may be present.
- Terra Cotta is 100% nitrile rubber and can withstand harsh environments

CT35TC

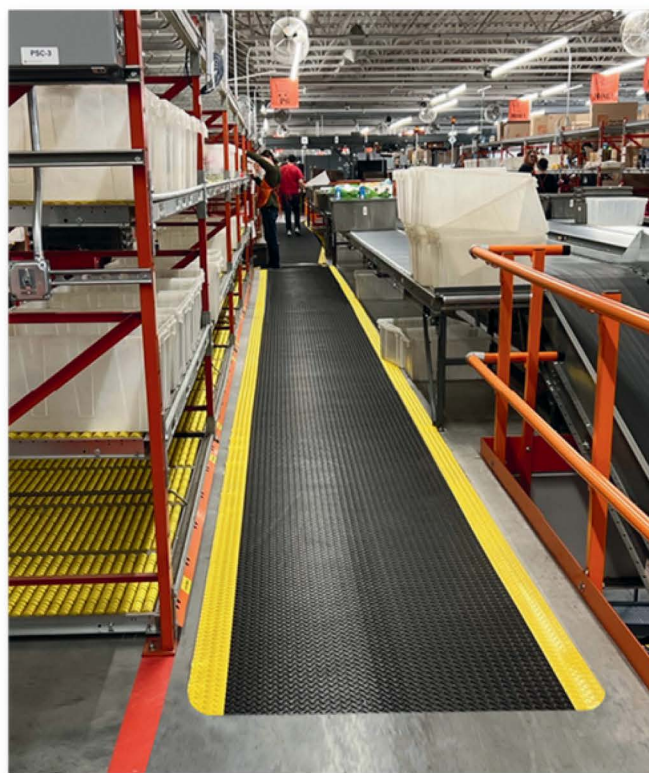

Industrial Deck Plate

Size – 3'x5' Available
Customization up to 12' wide
Anti-Fatigue PVC foam laminated
with vinyl diamond plate surface.
MFG#- CD 0035YB

Floor Matting

- Floor mats come with beveled edges on all four sides (no need to buy safety ramps separately).
- Regular mats need little-to-no manual labor for installation.
- Drainage mats allow water or chemicals to leak through the mat, eliminating trip hazards.
- Diamond plate is the most commonly mat sold in general manufacturing facilities, packaging areas, assembly lines, etc.
